SAFETY, HEALTH, ENVIRONMENT & QUALITY POLICY

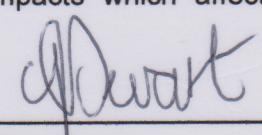

Bambanani Hydraulics (Pty) Ltd is an engineering company, manufacturing, and engineering hydraulics; fabricating, repairing, and installing steelwork as well as providing hydraulic equipment to the public.

We consider our clients, staff, external service providers and regulatory authorities as interested and affected parties.

To ensure the best delivery of service & product, Bambanani Hydraulics (Pty) Ltd will:

- Evaluate Bambanani Hydraulics' performance through continuous communication and customer satisfaction evaluation. Communicate with interested parties to encourage participation and commitment to safety, health, environment, and quality.
- Implement corrective action where there are non-conformances which need to be addressed which is monitored for effective close out.
- Implement effective systems to identify Bambanani Hydraulics (Pty) Ltd.'s SHEQ related risks and to ensure corrective and preventive measures to reduce the risk/impacts to acceptable levels.
- Through Objectives and Targets which are reviewed annually in the management review and monitored through the corrective action tracker, Bambanani Hydraulics (Pty) Ltd aims to improve on their business systems and implement continual improvement of the Quality Management System.
- Source experienced and competent staff to ensure product meets customer requirements.
- All Directors, future/current employees and sub-contractors are to understand their roles, responsibilities and accountabilities related to the nature and scale of safety, health, hygiene and environmental as well as quality impacts which affect our management systems.
